Maintenance plan

Weekly

Visual check of the general condition, removing dirt and ensuring there are no broken parts or damage that could be a danger to users.

Monthly

Check fabric tension.
Check that the aluminum structure has no damage or deep scratches.
Check the structural strength and stability.
Check the condition of the caps and studs.

Annual

Check the condition of the fabric and ensure it is correctly tensed.
Repair any damage to the paint.
Replace any worn or damaged parts.

Wintering and storage

Clean with soapy water and a soft cloth.
Remove damp stains, sand and seawater.
Store horizontally in a dry place in stacks of 4 units.

Observations

- Always use Balliu spare parts.
- Balliu does not manufacture parts for other brands.
- If the product is subject to heavy use, maintenance checks must be carried out more frequently.
- Do not use the product until maintenance is completed.
- Consult the maintenance instructions.
- Do not use aggressive chemicals to clean the product.
- Always use products with a neutral pH.
- Use a soft cloth to clean the product.
