### Maintenance plan

---

#### Weekly

Visual check of the general condition, removing dirt and ensuring there are no broken parts or damage that could be a danger to users.

#### Monthly

Check fabric tension.

Check the structural strength and stability.

Check the good condition of the rods and mechanisms, as well as their joints and points of articulation.

#### Annual

Check the condition of the fabric and the mast.

Replace any worn or damaged parts.

#### Wintering and storage

Clean with soapy water and a soft cloth.

Remove damp stains, sand and seawater.

Store horizontally in a dry place.

#### Observations

- Always use Balliu spare parts.
- Balliu does not manufacture parts for other brands.
- If the product is subject to heavy use, maintenance checks must be carried out more frequently.
- Do not use the product until maintenance is completed.
- Do not use aggressive chemicals to clean the product.
- Always use products with a neutral pH.
- Use a soft cloth to clean the product.
